

## Biography/CV Donna Winn (Canada)

Contemporary artist Donna Winn is inspired by the world around her, mainly the beautiful foothills of the Rocky Mountains, where she lives and works. Born in a small village outside of Montreal, Quebec, for the past 40 years, Donna Winn has called the Calgary area home. It is here where she found her calling as an artist. It is also where she enjoyed her art schooling at the Alberta College of Art.

A big part of Donna's life's journey has been putting images on canvas or paper. Over the past 30 years, her work has seen tremendous growth. Although staying true to her own style, she does not shy away from risks with new mediums or shapes.

Donna's work has been included in a variety of Galleries throughout Alberta, and her paintings found their way to private collections in Canada, the USA, England and Taiwan.
